

POWER ANIMAL

DIVINE TAROT

78 animals. Four elements. One flowing world.

An original animal tarot with sculptural organic forms, luminous pearl surfaces and celestial gold. Each creature offers a different way to see a familiar question.

Read with curiosity

Use these cards as prompts for reflection and creative conversation. Ask a question about your choices, attention or next step. Look at the animal and its movement before reading the meaning.

One card: What deserves my attention today?

Three cards: What is present? What challenges me? What can I practice?

Reversed cards: Optionally turn some cards upside down. Read the reversed meaning as a blocked, private or exaggerated expression of the same theme.

The four suits

WANDS / FIRE

Energy, initiative, creative instinct.

CUPS / WATER

Feeling, relationship, imagination.

WORDS / AIR

Thought, truth, communication.

PENTACLES / EARTH

Resources, work, body, daily care.

Make your own deck

- 1.** Choose the A4 or US Letter print PDF that matches your paper. Each has 40 pages: twenty front sheets alternating with their matching back sheets. Each full sheet holds four cards; the last holds two.
- 2.** Print at **100% / Actual size**. Disable Fit, Shrink and borderless enlargement. Select **duplex, flip on long edge**. Start with pages 1-2 as a test.
- 3.** Hold the test sheet up to the light. Check the cut marks and confirm a front and back occupy the same position. Print the remaining pages with the same settings. Printer alignment varies.
- 4.** For a printer without duplex, test its feed direction with one sheet. Print one front page, reinsert the sheet, then print its immediately following back page. Repeat only after checking orientation.
- 5.** Use paper your printer supports. For a sturdier prototype, glue separately printed fronts and backs to a suitable card core. Let adhesive dry flat before cutting.
- 6.** Cut at the marks to **70 x 120 mm**. The sheets include 3 mm of background bleed. Optionally round the corners using a small corner punch.
- 7.** The master deck PDF has 79 pages: 78 individual fronts plus one matching back. Its page size is 76 x 126 mm with a 70 x 120 mm TrimBox. Repeat page 79 as the back for all cards when preparing a printer order.
- 8.** The individual-card JPG files are trimmed to 70 x 120 mm at approximately 300 dpi. The gold is printed color; real foil requires separate vendor preparation.
